Marine Science and Technology Industry
Marine Instrumentation and Equipment
Marine Services
Marine Research and Education
Marine Materials and Supplies
Shipbuilding and Design (SBD)
Oceanographic and geophysical measuring instruments
Marine acoustics
Electronics for marine instruments and platforms
Electronics for marine navigation and communications
Underwater vehicles
Marine/ coastal engineering
Commercial marine research and consulting
Marine security and defense
Other activities
Marine research and consulting
Marine education
Industry and technology transfer groups
Machining/assembly
Materials, composites and coatings
Rigging, cords and cable, mooring systems
Engines, components, and equipment
